TextHelp has released their 10th version of their software. TextHelp Read&Write 10 GOLD is designed to assist users of all ages who require extra assistance when reading or composing text. The software provides users with dyslexia, literacy difficulties and English as a Second Language with literacy support throughout their education, from primary through to tertiary level and into the workplace.

TextHelp Gold V10 is available for DSA at £240.00, non-DSA is £320.00 both are VAT Exempt.

The long awaited Dragon Medical Add-On has been released to be used with Dragon Naturally Professional. Dragon Medical 11 introduces new commands that act on multiple mouse clicks and keystrokes. With the new commands, it is faster and easier to open applications, open or switch to a particular window, send emails, or search the web – all by voice.

It is available from us bundled in with Dragon Naturally Professional V11 and a USB Headset for £340.00 VAT Exempt.

For any Mac users, we recommend the Apple Track-Pad. The Magic Trackpad is just like the trackpad on the MacBook Pro — but bigger. It's made with the same advanced touch-friendly and wear-resistant glass surface. But with nearly 80 per cent more area, it's the largest Multi-Touch trackpad made by Apple. So there's even more room for you to scroll, swipe, pinch and rotate to your fingers' content. And since the entire surface is a button that clicks, you can use it in place of a mouse.

Available from us for £49.00 Ex VAT.

Mind View 4 has arrived for Windows users. Match Ware's Mind View is a comprehensive, visual learning tool designed to help you develop and organize ideas. Based on the proven Mind Mapping theory, it enhances creativity, clarifies thinking and improves memory. Choose from a variety of ready-to-use templates, easy-to-use wizards and professional clipart to improve your layout. Export your completed Mind Map to Microsoft Word, Microsoft PowerPoint, HTML or Mediator.

Mind View 4 is available from us for £59.00 EX VAT.

Weighing a mere 135grams and measuring 2.5mm in thickness, STANDIVARIUS aero redefines the limits of ultra-thin and ultra-portable. It takes a sharp 2 seconds to set it up, so you have total freedom of movement without compromising in any way on the ergonomic aspects. Easily attached to the base of any laptop, you can take it with you anywhere for instant ergonomics.

These are available for £40.00Ex VAT.

Franklin is releasing a range of magnifying glasses with built in LED lights. The lights can alternate between different colours to suit the lighting being used and the material that the text is on. The polished metal finish is durable and stylish, and the packaging is environmentally friendly too. As well as magnifiers, there is also a range of booklights that can clip on to pages and text for better illumination when reading to aid poor sight or poor lighting.

Prices are to be advised at this time.

The U Turn A4 document and book holder is a little, but sturdy stand. Offering 7 levels of adjustment for A4 landscape on portrait document or book support. Made from high strength steel, this stylish product offers great design and performance, but with the durability to last. Also capable of supporting a Notebook instead of books, it is multi-purpose and hard-wearing. While not as portable as other options may be, there are no worries of this breaking unlike some plastic counterparts might.

These are available for £24.00 Ex VAT.
